

Knitting Mushroom

Once you have made a Knitting Mushroom, all you need is a hank of yarn, a crochet hook and a child to give it to. I make mine small enough that it will fit in the hands of a child, 6 to 10 years old. The mushroom top needs to be approx. 3" across, and the handle at least 4" long with a 5/8" hole drilled thru it.

Once you have started the yarn like the above illustration, the yarn is wrapped a second time around the first post, and you hook the first yarn strand and bring it over the top of the post. continue on around to the next post and do the same thing. Keep pulling the yarn down thru the post until it starts to come out knitted together.

Many examples on shown on the internet in case you are aren't able to follow these instructions.
