We have an exciting schedule of up coming demonstrations lined up. Plan to attend all meetings and be sure to bring your work to share with all.**

**This is the first issue of the news letter. We hope it will improve as time go's on. We need some help with it, though. First we need someone who is willing to take pictures and get names of those in them. We also would like the members to send to us any shows your are going to do so we can indicate them in the space above. Further we would like to highlight some of the members, so if you feel like you would like to do so please drop a brief bio to us we can include it in the news letter.**
