A Word of Welcome

We had a demonstration on small birdhouses Has anyone done one these? If so bring it in to the "Show and Tell" segment of the meeting and show it. Remember this is to show your work, regardless of your experience and skill level!

We have seen several people show their work following a demonstration. We encourage all to bring their work and share it with everyone.

Well we are underway with the news letter. We hope to improve it time go's on. We need some help with it, though. First we need someone who is willing to take pictures and get names of those in them. We also would like the members to send to us any shows your are going to do so we can indicate them in the space above. Further we would like to highlight some of the members, so if you feel like you would like to do so please drop a brief bio to us we can include it in the news letter.
